Purpose   Thank you for completing this questionnaire, which is helpful to me in structuring the course. All information will be kept confidential.

Name	Class Year	Major	Email Address	Registration Status (circle one)
				enrolled / wait list / neither

Background

- Please tell me about your background (e.g. major and area of interest, other activities, significant orgs or athletics):

- Please list the three most recent math, statistics, or computer science courses that you have taken (which may be in high school):

- What are your personal goals for this course?

- Are there specific topics that you are particularly interested in studying?

- In which related areas of study are you most interested (e.g. biology, economics, psychology, finance, sociology, computer science, engineering etc.) [list as many as you like]?

- Please indicate your familiarity with the R statistical computing environment:

    never heard of it   never used it   getting started   pretty comfortable   expert

- How strongly do you entertain the notion of working in a quantitative field after graduation (circle one)?

    not at all   hardly ever   sometimes   often   OMG, it's all I think about!

- Is there any other information that I should know?
